

Jackson Howard

EURAXESS North America

Presentation to the EURAXESS Europe colleagues

Thursday, November 7th, 2024

North American landscape

- Large presence of diasporas, as well as embassies covering STI or diaspora portfolios
- Considerable variance in formality, size, and support
- Examples: Launch of Swedish network at our annual meeting, presentations at other networks' meetings
- Highly integrated into the U.S. and Canada

North American landscape

- Ongoing survey analysis:
- *Dynamics of Global Mobility: Opportunities and Challenges of European Scientific Diasporas*
- In 2021, we had quarterly meetings with diaspora networks
- *Challenges: Limited time due to volunteering*
- Each embassy/country is very different
- *Example: Embassy of Belgium wants us to create a network, not them*

Annual Meetings

- [This year's edition](#) (tomorrow!)
- [Last year's edition](#) (photo album available)
- [2022 edition](#) (recording available)

10TH ANNUAL MEETING OF THE
EUROPEAN
SCIENTIFIC
DIASPORAS
IN NORTH AMERICA
